

24th IFHTSE CONGRESS 2017
European Conference on Heat Treatment
and Surface Engineering
A3TS CONGRESS

26-29 June 2017
Congress Center
NICE Acropolis - France

FIRST ANNOUNCEMENT

FIRST ANNOUNCEMENT

26 – 29 June 2017

CONGRESS CENTER

NICE ACROPOLI - FRANCE

A3TS, the French Association for Heat and Surface Treatment, and **IFHTSE**, the International Federation of Heat Treatment and Surface Engineering, have partnered to create a unique event focused on Thermal Processing, Heat Treating and Surface Engineering in 2017.

Thermal processing is a critical step in bringing engineered and manufactured products to market with high performance requirement. From historical fields of heat treatment of ferrous and non-ferrous metals, science and art of thermal processing now include complementary technologies which contribute to enhance properties for demanding applications in

automotive, aerospace, energy, defense, space and others. These technologies include coatings, thin deposition, powder processing ...providing benefits in mechanical performance, energy efficiency, tribology, corrosion resistance, bioproperties...

The Conference will benefit from partnership of European association. It will cover the development of technologies in Thermal and surface Engineering Program. Located at NICE (France) June 26-29, 2017, it has been scheduled just after Paris Air Show 2017, le Bourget (France).
