TOPIC

CACRCS DAYS 2021 edition will focus on practical engineering applications achieved by consolidated research work on corroded reinforced concrete and prestressed concrete structures.

Two round tables have been organised, the first one on information of pre-normative and normative documents, and the second one dedicated to focus on technical gaps for the structural evaluation of corroded concrete structures.

Since 2019 the Workshop has seen the participation of experts in the capacity assessment of corroded reinforced concrete structures. The workshop is open to young researchers, experts and practitioners.

In CACRCS DAYS context, professional engineers can find a community of people able to assist in practice problem solving and in making- decision procedures for the maintenance of existing structures.

ORGANIZING COMMITTEE

Coordinators: **Beatrice Belletti** (University of Parma), **Dario Coronelli** (Politecnico di Milano)

Anna Magri (CTE)

David Fernández-Ordóñez (*fib* Secretary General)

Luc Taerwe (*Ghent University, Editor-in-Chief Structural Concrete Journal*)

Isabella Giorgia Colombo, Marta Del Zoppo, Lorenzo Franceschini, Francesca Vecchi (*fib Italy Young Members Group*)

Carmen Andrade (*CIMNE - UPC*), Fabio Bolzoni (*Politecnico di Milano*), Joan Ramon Casas (*UPC*), Airon Chen (*Tongji University*), Zila Rinaldi (*Università di Roma Tor Vergata*), Jesus Rodriguez (*UPM*), Joost Walraven (*Em. TU Delft*), Weiping Zhang (*Tongji University*)

SCIENTIFIC COMMITTEE

Andres Torres-Acosta (*Tecnologico de Monterrey*), David Bastidas (*University of Akron*), Tiziano Bellezze (*Università Politecnica delle Marche*), Benoit Bissonnette (*CRIB - Laval University*), Veronique Bouteiller (*University Gustave Eiffel*), Bruno Briseghella (*Fuzhou University*), Nuno Ferreira (*Arup*), Joost

Gulikers (*Rijkswaterstaat*), Donatella Guzzoni (*ATE*), Raul Husni (*University of Buenos Aires*), Mehdi Kashani (*University of Southampton*), Federica Lollini (*Politecnico di Milano*), Sergio Lorenzi (*Università degli Studi di Bergamo*), Cecilia Monticelli (*Università degli Studi di Ferrara*), Chris Mundell (*Atkins*), Alan O'Connor (*Trinity College Dublin*), Alessandro Palermo (*University of Canterbury*), Fabrizio Palmisano (*Politecnico di Bari*), Frank Papworth (*BCRC*), Edoardo Proverbio (*Università di Messina*), Michael Raupach (*RWTH Aachen University*)

CALL FOR ABSTRACT

The CACRCS DAYS welcome all contributions related to the behaviour of reinforced concrete, fibre reinforced concrete and prestressed concrete structures damaged by corrosion; with both numerical and experimental approaches.

Abstracts and papers may be submitted to the website of CACRCS event.

PAPER SUBMISSION

Authors willing to present their work at the CACRCS DAYS 2021 are invited to kindly submit an abstract in accordance with the sessions of the workshop. The abstract should not exceed 750 characters.

Extended abstracts (4 pages long) will be included in the Proceedings of the Workshop.

The Authors of selected extended abstracts will be invited to submit a full manuscript to a Special Issue of Structural Concrete. The submission of full manuscript will undergo the usual peer-review process of Structural Concrete.

The template for abstracts and extended abstracts is available on the CACRCS website (www.cte-eventi.com/cacrcs/).

AWARDS

Awards will be conferred to the most outstanding paper presented by a *fib* young member and to the most excellent paper presented in the workshop.

IMPORTANT DATES

abstract submission	30.05.2021
abstract acceptance notification	15.06.2021
extended abstract submission	04.10.2021*
extended abstract acceptance	15.10.2021
final extended abstract submission	30.10.2021
author's registration	30.10.2021
presentation submission	15.11.2021
full manuscript to a Special Issue in Structural Concrete	28.02.2022

*those interested in submitting the extended abstract after the deadline, please contact the organizing committee at the following address cacrcs@cte-eventi.com.

EVENT ON LINE

As a speaker, you will intervene live in **streaming** on Zoom from anywhere in the world.

The authors will be asked to sign a document authorising the use of the records of their presentations by the organizing committee for the purpose of the event.

This authorization document will be available soon on CACRCS website (www.cte-eventi.com/cacrcs/).

SPONSORS

The companies interested in supporting the event can contact us by e-mail to cacrcs@cte-eventi.com

PRELIMINARY PROGRAM

Special sessions are organised during the workshop. During the submission process, Authors are invited to kindly select the session where they are willing to present their papers. Each session will include both research and engineering applications focussing on what is needed for the evaluation of corroded structures.

CACRCS DAYS 2021 includes Round tables to promote discussions.

The virtual workshop offers didactic material for engineers, practitioners, scientists, concrete technologists, researchers, and academics to improve the knowledge about the corrosion of reinforced concrete structures.

Tuesday 30 November

11:00 (*CET) OPENING OF THE WORKSHOP
*(Central European Time)

Welcome and Introduction

11:00 **B. Belletti, D. Coronelli**, Event Coordinators

11:15 **Claudio Failla**, CTE President

11:30 **David Fernández-Ordóñez**, *fib* Secretary General

11:45 **Luc Taerwe**, Editor-in-Chief of Structural Concrete

12:00 **Structural assessment codes for corroded Concrete structures**

Round table on pre-normative and normative documents

CHAIR: **Jesus Rodriguez**, *UPM*

The participants invited will share their views on normative (codes and standards) and pre-normative (model codes, manuals, guides) documents treating the structural assessment of existing deteriorated concrete structures with special emphasis on corrosion.

12:00 Round Table 1st part

Liam Coleman, Waka Kotahi Transport Agency, New Zealand

Andy Ng, Department of Transport, Australia

Torill Pape, Department of Transport and Main Roads, Australia

Takumi Shimomura, Nagaoka University of Technology, Japan

Huangjun Jiang, Tongji University, China

Ditao Niu, Xi'an University of Architecture and Technology, China

13:30 Round Table 2nd part

Fabrizio Palmisano, PPV consulting, Italy: Eurocodes

Alfred Strauss, Institute of Structural Engineering (IKI), Austria: fib MC2020

Agnieszka Bigaj-van Vliet, TNO, The Netherlands: fib Model Code 2020 & IM-Safe project

Rade Hajdin, Infrastructure Management Consultants, Switzerland: IABSE

Christopher Higgins, Oregon State University, US

Dan Frangopol, Lehigh University, US

15:00 (CET) Closing of the 1st Round Table

[15:00-15:30 Coffee Break](#)

A1) Basis of design, safety approach

KEY-NOTE LECTURES

15:30 **Robby Caspeele**, Ghent University
Partial factor- based assessment of existing concrete structures: new developments and applications

16:00 **Peter Tanner**, IETcc-CSIC
Perspectives and challenges in standardization for the assessment of existing structures

A2) Models of material deterioration for the integration in the structural assessment

KEY-NOTE LECTURES

16:30 **Carmen Andrade**, CIMNE – UPC
Approach to the residual strength of steel bars due to corrosion

17:00 **Federica Lollini**, Politecnico di Milano
Evaluation of corrosion conditions of reinforced concrete structures exposed to chloride-bearing environment

17:30 **Gomez E.D., Leporace-Guimil B., Conforti A., Giovanni A. Plizzari*, Zerbino R., Duffo G.S., *Università degli Studi di Brescia**
Reinforced concrete and fibre-reinforced concrete elements exposed to chloride-rich environments

PRESENTED PAPERS 1st part

18:00 **Bolzoni F., Beretta S., Diamanti M.V., Brenna A., Ormellese M., Pedferri M.**
Corrosion propagation: comparison of electrochemical and mass loss measurements

18:20 **Bellezze T., Mobili A., Tittarelli F.**
Durability benefits of galvanized steel in reinforced concrete under different exposure conditions

18:40 **Russo N., Gastaldi M., Schiavi L., Strini A., Lollini F.**
Chloride-induced corrosion initiation and propagation in sound and micro-cracked concretes

19:00 **Benenato A., Ferracuti B., Imperatore S., Lignola G.P.**
The surface crack width: an index to estimate the corrosion level of reinforcement

19:20 **Pedrosa F., Andrade C.**
Experimental results on the spatial variability of some concrete corrosion parameters

19:40 **Proverbio E., Recupero A., Venturi V.**
Integrating destructive and non-destructive inspection techniques in evaluating tendon corrosion in post-tensioned concrete beams

(*CET) CLOSING OF 1st DAY

Wednesday 1 December

10:00 (*CET) OPENING OF THE 2nd DAY

A2) Models of material deterioration for the integration in the structural assessment

PRESENTED PAPERS 2nd part

10:00 **Avadh K., Nagai K.**
Investigating the effect of corrosion on cracking and tension stiffening in reinforced concrete by 3D mesoscale discrete model

10:20 **Imperatore S., Benenato A., Kioumarsis M., Ferracuti B.**
The corrosion influence on the bond performance of different reinforcement typology

10:40 **Torres-Acosta A.A.**
Experimental determination of steel-concrete interface pressure due to steel corrosion products accumulation

11:00 **Kioumarsis M., Ahmadi M., Imperatore S., Benenato A., Ferracuti B.**
Predicting Bond Strength of Corroded Steel Rebars Using Modified Artificial Neural Networks

11:20 **Yilmaz D., Angst U.**
Localised rebar corrosion morphology – Data collection on structures

11:40 **Belluco S., Fabris N., Faleschini F., Caprili S.**
Mechanical behaviour of corroded strands: a review of constitutive models

12:00 **Franceschini L., Vecchi F., Belletti B., Tondolo F., Sanchez Montero J.**
Degradation due to Pitting Corrosion: A Constitutive Model for the Mechanical Behaviour of Corroded Prestressing Strands

12:20 **Bolzoni F., Ormellese M., Proverbio E., Pedferri M.**
Big milestones in the study of steel corrosion in concrete

[12:40-13:00 Coffee Break](#)

B1) Structural assessment of corroded members (beams, slabs, columns, walls)

KEY-NOTE LECTURES

13:00 **Weiping Zhang***, Zhang Y., Chen J., *Tongji University (Weiping Zhang, Yunpeng Zhang, Junyu Chen)
Stochastic Analysis of Deterioration of Structural Behavior of Reinforced Concrete Beams in Marine Atmosphere

13:30 **Joost Walraven**, Em. TU Delft
Assessment of concrete structures with corroded reinforcement: development of recommendations

14:00 **Pieter Desnerck**, University of Cambridge
Assessment of deteriorated reinforced concrete half-joint bridges

PRESENTED PAPERS

14:40 **Ding H., Jiang C., Gu X.L., Zhang W.P.**
Simplified calculation methods for bearing capacities of corroded reinforced concrete columns in uniaxial compression

15:00 **De Domenico D., Messina D., Recupero A.**
Cyclic behavior prediction of corroded reinforced concrete columns through a fiber hinge model

15:20 **Dabas M., Martín-Pérez B., Almansour H.**
Effects of Variable Pattern of Reinforcement Corrosion on the Structural Performance of Aged Columns

15:40 **Zaghian S., Martín-Pérez B., Almansour H.**
Nonlinear Finite Element Modelling of Bridge Piers Subjected to Corrosion, Freeze-Thaw Cycles, and Traffic Load

16:00 **Prieto M., Tanner P.**
Assessment procedure of corrosion-damaged structures with stress field models

16:20 **Haefliger S., Kaufmann W.**
Experiments on locally corroded retaining wall segments and their assessment with the Corroded Tension Chord Model

16:40 **Bouteiller V., Adelaïde L., Marie-Victoire E., Bouichou M., Thauvin B., Villain G.**
Non Destructive Testing and Corrosion Health Monitoring of reinforced concrete slabs exposed to chloride ions

17:00 **Casprini E., Passoni C., Marini A., Bartoli G.**
Modelling corrosion effects in Reinforced Concrete structural members through equivalent damage parameters

[17:20-17:40 Coffee Break](#)

17:40 **Di Carlo F., Isabella P., Rinaldi Z., Spagnuolo S.**
Influence of corrosion on the flexural behavior of corroded reinforced concrete beams

18:00 **Cladera A., Ribas C., Ruiz-Pinilla J.G., Marí A.**
Mechanical model for the long-term shear strength prediction of corrosion-damaged RC beams

18:20 **Messina D., Scionti G., Proverbio E.**
Effect of prestressing steel corrosion on failure mode in post-tensioned concrete structures

18:40 **Coronelli D., Rosati G.**
Natural corrosion effects on prestressed beams failure modes

19:00 **Granata M.F., La Mendola L.**
Influence of bond deterioration on shear-flexure failure of prestressed girders with post-tensioned tendons

19:20 **Franceschini L., Vecchi F., Belletti B.**
Service Life Prediction of Corroded Prestressed Concrete Beams based on Probabilistic Assumptions

19:40 **Casprini E., Passoni C., Marini A., Bartoli G.**
Corrosion effects: detection, evaluation and modelling for structural assessment

(*CET) CLOSING OF 2nd DAY

Thursday 2 December

11:00 (*CET) OPENING OF THE 3rd DAY

B2) Assessment of corroded structures subjected to seismic or accidental actions

KEY-NOTE LECTURES

11:00 **Michael Fardis**, University of Patras
Seismic assessment and retrofitting of concrete structures with corroded reinforcement

11:30 **Camillo Nuti***, Bergami A., Pelle A., Fiorentino G., Lavorato D., Quaranta G., Briseghella B., Rasulo A., *Università degli Studi Roma Tre
Ultra-high performance fibre reinforced concrete (UHPFRC) to improve durability and reduce greenhouse gas emissions

PRESENTED PAPERS

12:00 **Njeem W., Aoude H., Martin-Perez B., Jrade A.**
Effect of Corrosion on the Flexural Response of Reinforced Concrete Beams Subjected to Blast Loads

12:20 **Francesca Vecchi, Lorenzo Franceschini, Beatrice Belletti**

Capacity assessment of existing RC columns taking into account bi-axial shear failure

12:40 **Matthews B., Palermo A., Scott A.**

Rate of Cyclic Shear Degradation of Circular Reinforced Concrete Columns due to Accelerated Chloride Corrosion

13:00 **Celik A., Yalciner H., Kumbasaroglu A., Turan A.I.**

Structural capacity of highly corroded reinforced concrete columns

13:20 **Tastani S., Kyriakou A.**

Assessment of reinforced concrete columns with corroded splices

13:40 **Mahboubi S., Kioumarsis M.**

Seismic damage potential of RC bridge subjected to corrosion

14:00 **Belletti B., Martinelli E., Michelini E., Vecchi F.**

Seismic fragility assessment for an existing RC frame-wall dual system building with corroded bars

[14:20 – 14:30 Coffee Break](#)

C1) Prolongation of structural life with proactive or reactive interventions

KEY-NOTE LECTURES

14:30 **Tamon Ueda**, Shenzhen University

Prolongation of service life with structural interventions

15:00 **Benoit Bissonnette**, CRIB - Laval University

Influence of various treatments upon prevention or mitigation of steel reinforcement corrosion in reinforced concrete

PRESENTED PAPERS

15:40 **Carisi F., Larocca M., Belardi A., De Paola A., Baldovin E., D'Antonio L., Vergnani M.**

Safety by material restoration of the flood detention basin's weir of the Enza river, Northern Italy

16:00 **La Tegola A., Mera W.**

Experimental research on reinforced concrete structures with CFRP bars in aggressive marine environment

16:20 **Basdeki M., Apostolopoulos C.**

Mechanical behavior evaluation of B500c steel reinforcing bars with coating, in a marine environment

16:40 **Becerra Mosquera J.A., Carro-López D., Herrador-Barrios M.F.**

Prolongation of structural life in carbonated basements and car parks

17:00 **Koulouris K., Gotsopoulos A., Apostolopoulos C.**

Experimental study on the recovery's degree of bond strength after using repair mortars

17:20 **Sousana Tastani**

Corroded steel anchorages in strain resilient cementitious composites

17:40 **Ruiz-Pinilla J.G., Montoya-Coronado L.A., del Río S., Ribas C., Cladera A.**

Active confinement of beams and columns using iron-based shape memory alloys

18:00 **De Luca A., Cao L.**

Digital twins for predictive performance of reinforced concrete bridges

(*CET) CLOSING OF 3rd DAY

Friday 3 December

11:00 (*CET) OPENING OF THE 3rd DAY

C2) Case studies of corroded existing bridges and infrastructures

KEY-NOTE LECTURES

11:00 **Akio Kasuga**, Sumitomo Mitsui Construction
Evolution of bridge construction - Non-metallic bridges

11:30 **Edoardo Cosenza***, **Sessa M., Losanno D., Bilotta A.**, *Università degli Studi di Napoli Federico II
Application of the new Italian guidelines for existing bridges: an early case-study

12:00 **Marco di Prisco**, Politecnico di Milano
The maintenance plan for existing bridges: a useless piece of paper or a strategic document?

PRESENTED PAPERS

12:40 **Formisano A., Felitti M., Oliveto F., Mendicino L.**
Influence of different degradation mechanisms on structural robustness: the case study of a reinforced concrete arch bridge

13:00 **Nagender T., Parulekar Y.M., Chattopadhyay J.**
Service Life Estimation of Corroded Reinforced Concrete Jetty

13:20 **Kristufek L., Sanchez L., Martin-Perez B., Noël M.**
Corrosion in prestressed and reinforced concrete in 56-year old structure in Montreal Canada

13:40 **Markovic I., Kagermanov A.**
Structural assessment of an existing corroded reinforced-concrete road bridge with complex and simplified methods

14:00 **Granata M.F., La Mendola L., Lo Giudice E., Messina D.**

Effect of degradation on the structural behaviour of an existing cantilever reinforced concrete bridge in Southern Italy

14:20 **Spinella N., Messina D.**

Flexural and Shear Capacity Assessment of Corroded Bridge Beams

14:40 **Yang Y., Sato Y.**

Numerical assessment on prestressed post-tensioned T-girder superstructure with corrosion-induced defects

15:00 **Mohammed A., Almansour H.**

Assessment of Safety and Serviceability of Aged Bridges subjected to Extreme Climate Loads

15:20 **Menga A., Kanstad T., Cantero D., Bathen L., Hornbostel K.**

Corrosion-induced failures of post-tensioned bridges

[15:40 – 16:00 Coffee Break](#)

16:00 **Round table on identifying the technical gaps for the structural evaluation of corroded concrete structures**

CHAIR: **Joost Walraven**, Em. TU Delft

As the main objective of this workshop is to move from research to daily engineering evaluation, this final Round Table aims to exchange some views and comments on the pending technical gaps for the structural evaluation of corroded concrete structures in spite of the contributions to this workshop

18:00 (*CET) **CLOSING CEREMONY**

- AWARDS
- Conclusion of the Workshop with Beatrice Belletti and Dario Coronelli

18:30 (*CET) CLOSING OF THE WORKSHOP

*(Central European Time)

REGISTRATION FEES

are VAT exempted and include participation in the virtual workshop and proceedings in electronic format.

Standard fee €250,00
(including CTE membership)

Reduced fee €150,00
(for CTE, *fib*, aicap Member 2021)

REGISTRATION FORM

You will **register** directly from the **CACRCS website** (www.cte-eventi.com/cacracs/) and make the payment by credit card or bank transfer to CTE.

For Bank Transfer please indicate
Name Surname – CACRCS 2021

CTE – Bank Intesa San Paolo
